Patricia Gulliford
Puronic Service, Inc.

Dear Pat,

We just wanted to let you know how pleased we are with our total Puronic water system. The Reverse Osmosis and soft water systems operate beautifully which, of course, is great not only pure drinking water but also for bathing and laundry.

We were very pleased with your support and the installers did a great job. They really pay attention to every detail. Because of our satisfaction with the products and the service we recommended them to our neighbor and also our son, both of whom had complete systems installed.

Sincerely,

Larry & Patti Warren

San Martin, CA
