To Whom in May Concern,

We do not easily write glowing letters about products and services. But this situation is different.

We bought two Paronics systems. One for our desert hideaway and one for our normal home. The installations were neat and professionally done. The systems are not intrusive and are easily maintained. The results are indeed impressive!

The water is not just "soft," but it tastes and smells like water did when you were a kid, clean and fresh!

We endorse Paronics, West Coast Water Filtration and Chuck Wohlberg. The results are superb.

Best personal regards,

Sandy and Dick Waitneight
