

Dear Julio: I want to thank you so very much for getting my water softener installed so quickly and professionally. My husband, Doug, was a little apprehensive about my decision to install the water softener, but to my great surprise he actually thanked me for finding this miracle cure for his unruly hair. I on the other hand love the benefits of soft water because my skin stays hydrated all day. I had chronically dry skin and now I barely use moisturizer.

Another thing I just find incredible about this system is the fact that my stemware and windows are sparkling and spot free. I also am thrilled that we are using much less commercial product on skin, hair and household cleaning. Overall, I am amazed at the many benefits that I discover every day as a result of our new water system.

I highly recommend this system and feel that it is well worth the investment. This is by far the most wholesome and beneficial approach to a cleaner, healthier way of life that I have discovered in recent years. Once again, Julio, thank you for introducing me to the water softening experience.
